1. This action is in response to the amendment received on December 18, 2006.

Claims 1-37 are pending.

2. The text of those sections of Title 35, US Code not included in this action can be found in a prior Office Action.

3. Claims 23-29 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims are directed to generating functional descriptive material (startup code) that is a program or a set of programs not embodied in a computer readable medium. Applicant's computer program/startup code is not tangible. Therefore, applicant's method of generating code that is not embodied on a computer readable medium is directed to generating non-tangible code. An abstract idea of a data structure became capable of producing a useful result when it was fixed in a tangible medium that enabled its functionality to be realized. In re Warmerdam, 33 F.3d 1354, 31 USPQ2d 1754 (Fed. Cir. 1994). The claim language would be statutory if applicant amended the claims to recite that the startup code is embodied in a computer readable medium (tangible).

4. Claims 1-22 and 30-37 are allowable over the art of record because the art of record does not teach or suggest the combination of interrelated steps recited in independent claims 1, 12 and 30.

5. Applicant's arguments filed on December 18, 2006 have been fully considered but they are not persuasive.

In the Remarks, applicant has argued in substance that:

Art Unit: 2115

A. Methods are explicitly recited as statutory subject matter within 35 U.S.C. § 101.

6. As to point A, the examiner disagrees with applicant's contention. Claiming non-tangible functional descriptive material in the form of a method does not make the claimed non-tangible functional descriptive material statutory subject matter under 35 U.S.C. § 101 anymore than claiming a method of generating perpetual motion makes perpetual motion statutory subject matter.

7. **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
